SUMMARY

Full-Stack Developer specializing in **scalable backend systems and AI-integrated applications**. Experienced in building **60+ REST APIs**, implementing secure authentication (JWT, OAuth, OTP), and integrating **LLM-based features (Llama, Gemini)**. Strong focus on performance optimization, system design, and real-world problem solving.

EDUCATION

- Bhagwan Mahavir College of Computer Application (BMCCA)** Surat, India
Bachelor of Computer Application (BCA), GPA: 8.22 / 10 Jul 2023 – May 2026

SKILLS

- Programming:** JavaScript (ES6+), Python, C++, Java
- Backend Development:** Node.js, Express.js, REST APIs, Scalable System Design, Microservices Architecture
- AI/LLM Integration:** Groq (Llama 3), Gemini API, Prompt Engineering
- Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS
- Database:** MongoDB, MySQL (Indexing, Query Optimization)
- Authentication & Security:** JWT Authentication, OAuth 2.0, OTP-based Authentication
- Tools & Platforms:** Git, Docker, Postman, Google Cloud Platform (GCP)
- Concepts:** Data Structures & Algorithms, API Design, Database Optimization

EXPERIENCE

- Cripocode Artificial Intelligence Pvt. Ltd.** Surat, India
Full Stack Developer Intern Jan 2026 – Mar 2026
 - Designed and maintained **60+ scalable, high-performance RESTful APIs** using Node.js and Express.js.
 - Developed **interactive analytics dashboards** for transaction and inventory insights.
 - Contributed to an **AI-based KYC system**, reducing fraud attempts by **40%**.
 - Built **responsive UI components** using React.js and Tailwind CSS.
 - Optimized MongoDB queries and indexing, improving response time by **50%**.

PROJECTS

- CareerPath AI – SaaS Platform** | *MERN Stack, Llama 3.3, Razorpay*
 - Architected a **scalable modular backend system** for AI-driven assessments with **60+ APIs** following clean architecture.
 - Integrated **Llama 3.3-70B (Groq)** for dynamic quiz generation and performance analysis with low-latency inference.
 - Reduced AI response latency and improved quiz generation efficiency using **Groq-powered LLM integration**.
 - Built a **Role-Based Access Control (RBAC)** system with OTP + Google OAuth and secure **JWT rotation**.
 - Designed **subscription & quota system** using Razorpay with AI usage tracking and feature gating.
- SafeSpend – Financial Intelligence Platform** | *MERN Stack*
 - Built a **production-ready full-stack finance platform** with real-time analytics and **25+ REST APIs**.
 - Engineered **budgeting, expense tracking, and goal management modules** with live progress indicators.
 - Implemented **secure authentication (JWT, OAuth 2.0)** and encrypted data handling with robust validation.
 - Built an **Excel reporting engine (XLSX)** for automated financial exports and insights.

CERTIFICATIONS & HONORS

- Google Cloud:** Build Real-World AI Apps with Gemini & Imagen
- GeeksforGeeks:** DSA 160 – Data Structures & Algorithms
- HackerRank:** Java & JavaScript Certifications
- Awards:** 1st Place Design Thinking (BMU), 2nd Place Innovate Hackathon
